

Occupational Therapy

Lime Occupational Therapist's (OT) are health care professionals who help people to do everyday activities.

Typically, people who access OT services have experienced an illness, injury or changes due to the process of ageing, that get in the way of doing the things they want to do - work, play or study.

OT interventions provided by Lime Occupational Therapy:

- Home and safety assessment including access and bathroom modifications
- Equipment prescription; including showering and toileting aids, mobility aids including walkers, wheelchairs, scooters, electric wheelchairs; electric beds; stand lifters and hoists; personal response systems; bidets and small aids related to activities of daily living including adapted cutlery, long handled aids etc.
- Specialised assessments related to seating, pressure care, transfers and activities of daily living
- Cognitive assessment and functional retraining
- Falls prevention assessment
- Energy conservation and work simplification education
- Chronic pain and fatigue management and education
- Assistance with complex care needs and organisation of services required
- Inpatient and discharge planning
